Cove Shaped Profiles for floors and walls

NEW

PROCOVE™ COVE SHAPED PROFILE

ProCove™ is an aluminum cove profile designed to form a decorative corner joint for tiled surfaces. Use it to bridge tiled floors and walls for an attractive, easy to clean transition. Matching trim pieces available; see below.

PROCOVE™ A COVE SHAPED PROFILE

ProCove™ A is designed to provide smooth transitions between tiled walls and floors or countertops with hard or soft surface finishes. Matching trim pieces available; see below.

PROCOVE™ COVE SHAPED PROFILE LEFT AND RIGHT END CAPS

ProCove™ end caps provide a finished look. They are made of pressure cast metal with a decorative finish.

For use with ProCove and ProCove A profiles.

PROCOVE™ CORNER PIECES

ProCove™ inside and outside corner pieces eliminate the need for a mitered edge treatment.

For use with ProCove and ProCove A profiles.

PROCOVE™ UNIVERSAL CONNECTOR

ProCove™ universal connector provides a smooth transition where two linear profile pieces meet. This unfinished connector slides between two profiles and is not visible once installed.

For use with ProCove and ProCove A profiles.

Movement Joint Profiles for floors

NEW

PROCONNEX™ MOVEMENT JOINT PROFILE

ProConnex™ is a thin-bed profile used to compensate for horizontal stresses in tile or stone floor covering installations.

PROCOVE™ E COVE SHAPED PROFILE

ProCove™ E is a stainless steel profile specifically designed to form a decorative joint between tiled walls and tiled floors.

PROCOVE™ E COVE SHAPED PROFILE END CAP

ProCove™ E end caps provide a finished look. They are made of stainless steel with a decorative finish. End caps may be used on left or right side interchangeably and may be cut to fit.

PROCOVE™ E CORNER PIECES

ProCove™ E inside and outside corner pieces eliminate the need for a mitered edge treatment.

PROCOVE™ E UNIVERSAL CONNECTOR

ProCove™ universal connector provides a smooth transition where two linear profile pieces meet. This unfinished connector slides between two profiles and is not visible once installed.

For use with ProCove E profiles and all three accessories.

PROCONNEX™ B MOVEMENT JOINT PROFILE

ProConnex™ B is designed to bridge visible expansion joints up to 1-3/16" (30 mm). Made of anodized aluminum, this expansion joint profile is suitable for tile surfaces exposed to foot and vehicle traffic in commercial applications.

PROCONNEX™ C MOVEMENT JOINT PROFILE (FLOOR TO WALL)

ProConnex™ C is a corner profile that bridges the transition between floors and walls. It also prevents disruptive sound transfer. With an elegant joint design and uniform joint width, ProConnex™ C produces a visually pleasing expansion joint at changes of plane.
