3 Product Description
A temporary, water soluble, pre-grout coating. It provides protection against grout and mortar staining and eases grout cleanup.

Key Features
- Temporary, water-soluble pre-grout coating
- Provides protection against grout & mortar staining
- Installation aid simplifies cleanup

Limitations to the Product
- Prevent buildup of Grout Release in grout joints
- Do not use acid solutions for cleanup as acid may react with Grout Release, forming a crystalline residue on surface
- Product may discolor some light colored tile and stone

4 Technical Data
Environmental Consideration
Complies with all Federal EPA and SCAQMD standards for VOC

5 Instructions
Application of Product
USE CHEMICAL-RESISTANT GLOVES, such as nitrile, when handling product.

Read entire label before using. Apply a coat of Grout Release, ensuring 100% surface coverage using a sponge applicator, heavy-textured paint roller or brush. Allow a minimum of 30 minutes drying time before grouting. Follow grout manufacturer’s instructions for grouting process. Grout Release residue should be removed through normal grout cleanup process. If Grout Release residue remains on surface, use Aqua Mix® Heavy-Duty Tile & Grout Cleaner to remove. For most smooth porous surfaces, an application of sealer may be used in lieu of Grout Release prior to grouting.

Cleaning of equipment
Clean tools with water before material dries.

Health Precautions
MAY BE HARMFUL IF SWALLOWED. MAY IRRITATE EYES AND SKIN. Wear skin and eye protection. Contains diethanolamine. If in eyes, flush with water for at least 15 minutes. If on skin, wash with soap and water. If irritation persists, seek medical attention. If swallowed, DO NOT induce vomiting, seek medical attention. KEEP OUT OF REACH OF CHILDREN
