3 Product Description
An abrasive cream cleaner designed to work where other cleaners won't. It utilizes micro-sized particles to penetrate into small surface pores where it can effectively work to remove surface stains and residues. Effective for cleaning all stone and tile surfaces. Also removes factory applied waxes and floor finishes, coating sealers, light grout residue (including epoxy), rubber and pencil marks, light mineral deposits, ground-in dirt and most sealer residues. NanoClean® is non-flammable and non-acidic.

Available in Canada only.

Key Features
- Powerful abrasive cleaner
- Penetrates small surface pores to remove stains

Uses
Porcelain, ceramic, polished and unpolished natural stone (such as granite, limestone, marble, slate, and travertine), grout, quarry, saltillo, terra-cotta, cement pavers, masonry surfaces, and other stone, tile and grout surfaces.

Limitations to the Product
Do not allow product to come in contact with any non-recommended surface.

4 Technical Data
Technical Properties Chart
- Cream consistency
- pH 9-10
- Complies with all Federal EPA and SCAQMD standards for VOC

5 Instructions
General Surface Prep
Test a small area according to application instructions to determine desired results.

Application of Product
USE CHEMICAL-RESISTANT GLOVES, such as nitrile, when handling product.
