Grout Renew

1. Product Name

Grout Renew

2. Product Description

Grout Renew is a waterborne acrylic stain and sealer for renewing or changing the color of cement grout joints. Formulated with fade-resistant pigments, Grout Renew seals the grout against stains while it colors. Available in all 40 Polyblend® Plus colors to complement any tile or stone installation.

Key Features

- Makes grout joints look like new
- Stain and fade resistant
- Renew or change the color of grout
- Seals against stains
- Available in all 40 Polyblend Plus Grout colors

Uses

- Use to restore or change grout color of cement grout joints
- Interior or exterior use

Composition of Product

Epoxy modified acrylic latex, fine fillers and colored pigments

Benefits of Product in the Installation

- Renew or change the color of grout
- Seals against stains
- Available in all 40 Polyblend Grout colors

Limitations to the Product

- Not recommended for use underwater.
- Do not use solvent-based cleaners on recolored grout joints. We recommend TileLab® Grout & Tile Cleaner or a Aqua Mix® AquaShield Cleaner & Resealer.
- Unglazed tile will require sealing prior to coloring to ensure Grout Renew isn't absorbed into the tile. We recommend TileLab® SurfaceGard® Sealer.
- Do not apply when ambient temperature is below 50°F (10°C) or above 80°F (27°C).

Packaging

1/2 pt (237 ml) bottle

3. Instructions

General Surface Prep

USE CHEMICAL-RESISTANT GLOVES, such as nitrile, when handling product.

Existing grout joints should be clean and free of all sealers and contaminants which might inhibit bonding and absorption of colorant. Prepare existing joints by cleaning with TileLab® Sulfamic Acid Cleaner or Aqua Mix® Cement Grout Haze Remover according to directions on the container. Grout must be cured and dry prior to application. Test a small inconspicuous area prior to application. Carefully apply to the grout joint and allow to dry 30-60 minutes. Allow to dry 24 hours to see if desired results are obtained.

Application of Product

Shake well before using. If more than one bottle of the same color is being used, mix all bottles together in a separate container. Apply to dry grout joints. Test in an inconspicuous area before proceeding with full installation. Apply small bead of Grout Renew directly to center of joint. Work back and forth with a soft-bristled toothbrush to assure a thin, even application. Do not allow it to bead or puddle. Carefully apply to the grout joint and allow to dry 30-60 minutes. Work small areas at a time.

Cleaning of Equipment

Clean tools and hands with water before material dries.

Storage

Store and use in temperatures between 50°F - 80°F (10°C - 27°C) to protect from freezing.

Health Precautions

Do not take internally. Harmful if swallowed. If ingested, ingest liquids. Do not induce vomiting. Avoid contact with eyes and prolonged contact with skin. In case of eye contact, flush eyes with water for 15 minutes and call a physician immediately. Keep out of reach of children.

5. Product Warranty

Custom® Building Products warrants to the original consumer purchaser that its product shall be free from defects in material and workmanship under normal and proper usage for a period of one year following the date of original purchase. Custom's® sole liability under this warranty shall be limited to the replacement of the product. Some states, countries or territories do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty will not extend to any product which has been modified in any way or which has not been used in accordance with Custom's® printed instructions. Custom® makes no other warranties either expressed or implied. This warranty gives you specific legal rights, and you may have other rights that vary from state to state or from one country/territory to another. Click for details and complete warranty information.

6. Product Maintenance

Properly installed product requires no special maintenance. **Maintenance** Clean with a neutral cleaner such as Aquamix AquaKleen or Tilelab Grout & Tile Cleaner

7. Technical Services Information
