3. Product Description

Specially designed for stone and tile sealer application and cleanup. The kit contains one 4" x 4" sponge application pad for easy sealer application with less waste and two 18" x 18" microfiber towels for quick cleanup after sealing. Application pad distributes sealer evenly and efficiently for better, more even application. Microfiber towels lift, trap, and absorb better than other fibers and trap residue, dirt and particles that other towels may leave behind. Will not scratch stone surfaces and is reusable, absorbent and long-lasting.

Key Features

- Designed for stone and tile sealer application and cleanup

4. Instructions

General Surface Prep

Surface should be dry, clean and free of waxes, sealers or finishes. TileLab® Heavy-Duty Stripper & Cleaner or Aqua Mix® Heavy-Duty Tile & Grout Cleaner will clean the surface or strip wax and acrylic finishes. New installations need to be cured 48 - 72 hours before application. Protect painted surfaces. Test product in obscure area to ensure desirable results. Sealer can be applied 48 hours after grout has been installed.

Application of Product

Follow surface preparation and usage instructions of sealer to be used. Apply sealer to applicator pad and spread evenly over application area. Per sealer instructions, clean up any leftover sealer residue with microfiber towels. Wash applicator pad and towels per washing instructions.
