

StoneSpecific® Polished Granite Counter Kit (Canada Only)

1. Product Name

StoneSpecific® Polished Granite Counter Kit (Canada Only)

2. Product Description

The Polished Granite Counter Kit includes everything needed to optimally protect and shine polished stone counters by hand. Perfect for maximum protection and shine on kitchen counters, vanities and vertical stone walls decorative stone fixtures. Hides light etching and restores the lustrous finish.

StoneSpecific® Low VOC (Volatile Organic Compound) formulas help provide better indoor and outdoor air quality compared to similar traditional products. Complies with EPA and CARB VOC Requirements.

Do not use on floors.

Technical Chart

- €¢ Stain resistant to most household contaminants (CT1 - 072)
- €¢ Improves gloss of smooth granite
- €¢ Does not darken granite

3. Instructions

The surface must be clean, dry and free of wax, coatings or finishes. TileLab® Heavy-Duty Cleaner & Stripper will clean the surface and remove any wax or acrylic finishes.

Application of Product

USE CHEMICAL-RESISTANT GLOVES, such as nitrile, when handling product.

Test in an inconspicuous area of stone prior to application for desired results. Apply sealer (Part 1) liberally using a sponge or brush. Allow it to penetrate for 15 - 30 minutes. Wipe off any excess before it dries on the surface of the stone. If first coat has been absorbed, apply a second coat immediately following the same procedure. Very porous surfaces may require additional applications. Wait 1 hour before applying Polish (Part 2). Shake Granite Polish (Part 2) well and apply a thin, even coat to surface of stone just sealed. Apply sparingly; only a small amount is needed. Use a dry, clean cloth provided to apply polish. Wipe clean once polish has set for 8 - 10 minutes. Buff surface to a shine with the second clean, dry cloth provided. Wipe surface with clean, dry cloth as a final step.
