

# RECYCLED CONTENT OF EMERALD SYSTEM® PRODUCTS

Custom Building Products is committed to environmental responsibility and sustainability in everything we do. CUSTOM uses post-consumer and pre-consumer recycled materials whenever possible in manufacturing our tile and stone installation products. Including recycled materials in select products helps conserve natural resources and reduce the amount of waste sent to landfills.

- Our CustomLite® products include significant levels of lightweight recycled glass content to help to conserve energy so these products weigh less and require less fuel for transport to the jobsite.
- Look for CUSTOM's Build Green® logo on packaging to find over 100 products that contribute towards LEED certification through MR4 recycled content and other sustainability standards.

The following products contain recycled content, which qualifies them for CUSTOM's innovative, green building Emerald System™ program:

## Amount of Post-Consumer Recycled Content in Emerald System Products \*

Product	Recycled Content by Weight	Recycled Content by Volume
MegaLite® Ultimate Crack Prevention Large Format Tile Mortar	23%	48%
ProLite® Premium Large Format Tile Mortar	22%	48%
Levellite® Self-Leveling Underlayment	30%	50%
Prism® Color Consistent Grout	17%	42%
EBM-Lite™ Premium Epoxy Bonding Mortar – 100% Solids	19%	33%
CEG-Lite™ 100% Solids Commercial Epoxy Grout	10%	7%
RedGard® Uncoupling Mat	70%	70%

\*Contents contain up to the stated percentage by weight and volume.

## Emerald System™

CUSTOM's Emerald System takes environmental responsibility to a new level with a proactive approach to stewardship and compliance. The Emerald System comprises premium quality surface preparation, setting solutions and grout products that add value to impressive recycled content. The Emerald System directly addresses a number of key issues related to the practice of green building products.

- Agency Compliance: Emerald System products are guaranteed to comply with all leading environmental agency certifications.
- Lifetime Warranty: Emerald System products can be eligible for up to a Lifetime Installations Systems Warranty, ensuring a lasting and durable tile installation.
- Carbon Offset Credits: The Emerald System is the first installation system to contribute to a long-term solution to the emission of CO<sub>2</sub> resulting from portland cement production by offering Carbon Offset Credits.
- LEED Certification: Products in the Emerald System comply with the requirements of ANSI A138.1 and can assist in obtaining LEED certification.

For more information about the Emerald System or other LEED-contributing products, contact the CUSTOM Technical Services Department at **800.282.8786**.
